The purpose of this document is to provide faculty members, advisors and students with ISA’s recommended host institutions for Agriculture majors. For Natural Sciences courses, please see the ISA Biology Advising Guide. Detailed information about ISA programs at these host institutions is available on ISA’s website by following the links below. If you would like to receive specific course syllabi, or have further questions about any of these recommendations, please feel free to contact ISA’s Academic Affairs Department at academicaffairs@studiesabroad.com.

AFRICA

Nelson Mandela Metropolitan University (Port Elizabeth, South Africa)
The Department of Agriculture and Game Management at Nelson Mandela Metropolitan University (NNMU) offers courses that help students integrate technical knowledge of agriculture with managerial and management skills. NNMU is an engaged and people-centered university that serves the needs of its diverse communities by contributing to sustainable development through excellent academic courses, research and services.

Agricultural Fields:
- Agriculture
- Agriculture and Natural Resource Economics
- Animal Science

Other Regional Options:
- University of Cape Town – Cape Town, South Africa (Biology & Environmental Science Courses)
- University of the Western Cape – Cape Town, South Africa (Biotechnology & Biodiversity Courses)

ASIA

Mahidol University (Bangkok, Thailand)
The Department of Food Science and Technology at Mahidol University offers science courses that focus on food manufacturing. With the option to take courses in chemistry, microbiology, food safety, and nutrition (all taught in English), students will receive a background in food technology that is both theoretical and practical.

Fields:
- Biology
- Chemistry
- Health Science
- Food Science

EUROPE

University College Dublin (Dublin, Ireland)
Coursework for the Agriculture, Engineering & Science program at the University College Dublin (UCD) is offered by four colleges: the College of Agriculture, Food Science & Veterinary Medicine; the College of Engineering & Architecture; the College of Health Sciences; and the College of Science. The College of Agriculture, Food Science & Veterinary Medicine delivers a broad range of courses in the areas of Agriculture, Environment, Food Science, Human Nutrition, and Veterinary Science.

Agriculture Fields:
- Agricultural Business
- Agricultural Leadership and Communications
University of Reading (Reading, England)
The School of Agriculture, Policy and Development at the University of Reading has maintained its leading reputation since the 1800s. Courses within the School address food production, the sustainability of agro-ecosystems, food security, adaption and mitigation to climate change, food chains and health, animal welfare and behavior, poverty alleviation, international development, and consumer behavior and choice. Reading is repeatedly ranked as the UK’s top university for impact in Agricultural Sciences research.

Agricultural Fields:
- Agricultural Business
- Agriculture
- Animal Science

Other Regional Options:
- University of Stirling – Stirling, Scotland (Aquaculture Courses)

Latin America

Universidad Argentina de la Empresa (Buenos Aires, Argentina)
With courses in agriculture and agribusiness offered in advanced Spanish, Universidad Argentina de la Empresa is a good option for students with an advanced level of Spanish proficiency who are interested in the business of agriculture.

Agricultural Fields:
- Agricultural Business
- Agriculture

Other Regional Options:
- Pontificia Universidad Católica de Valparaíso – Valparaíso, Chile (courses in Spanish)
- Universidad Veritas – San José, Costa Rica (Agriculture and Sustainability courses in English)

Pacific

University of Western Australia (Perth, Australia)
The department of Agricultural Science at the University of Western Australia has a broad range of areas in which they excel, including dryland agriculture, stress-tolerant crops, crop water-use efficiency, soil constraints, and weed and pest science. Courses expose students to both environmental and economically sustainable practices to meet the challenges of the field in the twenty-first century. [Cricos Code: 00126G]

Agricultural Fields:
- Agricultural Business
- Agriculture
- Animal Science
- Biology
- Plant Science

For more curricular-specific information, please visit www.studiesabroad.com/recommendations
**Murdoch University (Perth, Australia)**
The School of Veterinary and Life Sciences at Murdoch University offers some of Australia’s most progressive courses in environmental, biological and veterinary science. The School has world-class facilities, including those at the State Agricultural Biotechnology Centre, allowing students to gain valuable practical experience. Moreover, Murdoch University offers students access to an on-site farm, as well as another 230 hectare farm that provides numerous opportunities for field work across disciplines. [Cricos Code: 00125J]

**Sample Agriculture Courses:**
- Animal Science
- Agriculture
- Veterinary Medicine

**Massey University – Palmerston North (Palmerston North, New Zealand)**
The Institute of Agriculture and Environment at Massey University offers course that focus on the development of sustainable land-based primary industries and on understanding and managing the geodiversity and biodiversity of New Zealand’s ecosystems. In addition, the Institute of Veterinary, Animal and Biomedical Sciences offers courses in animal health and welfare, biosecurity, conservation, and sustainable productivity.

Massey University offers an Internship opportunity in the agrifood sector.

**Agricultural Fields:**
- Agricultural Business
- Agriculture
- Agriculture and Natural Resource Economics
- Animal Science

**Other Regional Options:**
- La Trobe University – Melbourne, Australia
- University of Melbourne – Melbourne, Australia
- University of Newcastle – Newcastle, Australia
- University of Sydney – Sydney, Australia
- James Cook University – Townsville, Australia (Aquaculture Science and Technology)
